

ADDENDUM NO. 1
POCOMOKE CITY STREET IMPROVEMENTS
GMB PROJECT NO. 250008.B

General Note: The following supplementary data and corrective notations are hereby made a part of this project. The General Contractor is responsible for notifying his suppliers and Subcontractors regarding items covered by all Addenda.

CONTRACTOR'S QUESTIONS

Below are written questions received via email for this project. Wording of some questions may have been modified to suit the format of this document.

1. Does this bid have a liquid asphalt cement adjustment clause?

No, there is no liquid asphalt cement adjustment clause.

2. The bid documents say that the City wants the millings from the street preparation. Where will the millings need to be taken?

The milling materials are to be taken to the Public Works facility at 604 Young Street.

3. Can all the streets be milled at one time?

The streets can be milled at one time as long as the contractor follows up with resurfacing within a reasonable timeframe. The contractor will be responsible for protection of manhole frames and covers, valve boxes, etc. until the roads are resurfaced.

4. Will the City provide water for the milling machine, and will there be a fee?

Yes, the City will provide water for the milling machine from a designated location at no cost.

5. Does the City have a staging area for the contractor to use?

The City has a couple of areas the contractor can use for staging.

6. There is a 90-calendar day completion time for the project. Will there be allowances for weather, holidays, etc.?

The City will consider extending the contract time for excessive bad weather days.
